

The Crocker PTA is pleased to sponsor the upcoming parent education event. The presentation will be held during the first hour of the regularly scheduled PTA meeting, on Thursday, May 10th from 6:30 to 7:30 p.m. in the Crocker Multi Purpose Room. The final hour of the meeting will include PTA business.

PARENT EDUCATION WORKSHOPS

Learning and Science of the Brain

ScienceMaster Kenneth Wesson works as a keynote speaker and educational consultant for pre-school through university-level institutions and organizations. He speaks throughout the world on the neuroscience of learning and methods for creating classrooms and learning environments that are "brain-considerate." He is very interested in early brain development, design and engineering, and STEM (Science, Technology, Engineering, and Math). His goal is to help parents, students, and educators understand how the brain works so that students can be more successful in school.

ScienceMaster

*If it's your job to develop the mind,
shouldn't you know how the brain works?*
