### Travel Vaccinations

Vaccination recommendations for travel vary depending on your particular medical history and to where you are traveling. A medical professional trained specifically in travel vaccinations can tell you what is needed for your particular case.

For this reason, it is important to visit a clinic that specifically focuses on travel vaccinations.

For information about what vaccines *may* be recommended, visit <http://wwwnc.cdc.gov/travel/destinations/list/>

Many vaccinations recommended for international travel may not be available at your doctor's office, or the immunization clinics listed above.  For Kaiser members, Kaiser does have a travel vaccination clinic. For affiliates of UC Berkeley, contact the International Travel Clinic at (510) 643-7177.
