

MONDAYS

Cooking Around the World

A new year with all new curriculum and countries! Come experience the awesome juncture where fun meets cultural and culinary education; every class, we focus on a new country and it's authentic, interesting and exciting foods that define that country's seasonal ingredients. This year we have NEW recipes focusing on street foods, holiday recipes, and fun baking experiences. Come join us for an awesome semester of delicious FUNNNN!!!! All families will receive a Recipe E-Book at the end of the session, with all of the recipes from that session included!

TUESDAYS

Kids n Dance: Musical Theater: "Wizard of Oz"

Children of all abilities are proud to be a part of our polished mini-productions of musicals that are fun, challenging, and engaging. Cast members learn to develop character, vocal technique, presentation, and dance skills. The plays lasting about an hour with about 6-8 songs. Participants are expected to independently study their lines, songs, and blocking (as scheduled) and to attend all rehearsals. In addition, parents support the quality of our productions by volunteering a 2-4 hours of time around the show time helping with scene changes, costume changes, and stage set up. Costumes are supplied. Please have child prepare a song for the first day of class.

WEDNESDAYS

Bytes 4 Bits: Computer Programming I

Bytes for Bits is a weekly after school program that teaches the fundamentals of software coding. Students work primarily in Scratch Jr. and Scratch using lesson plans specifically designed for this age range. Lesson plans are modular so each student can progress at their own pace. Each class introduces base concepts and challenges that allow students to bring their creativity to the task. The curriculum for this series is designed for first time programmers. Grades 1-2 children that have attended this course before may return if they wish to consolidate their knowledge before moving to the next level. We will provide new challenges for returning students. Grade 3 children attending Bytes for Bits for the first time may join either this class or our CP2 series, depending on their comfort level

Time	Grades	Location	Cost	# of Sessions	Dates	No Classes

Kathy deRosas: Clay Explorations II

Clay Explorations is an after school program that explores and expands a students abilities to create art with clay in an intimate learning environment. The students learn the basic clay principals of hand building skills such as slab building, the great diversity of a pinch pot, coil building and glazing. The class is a combination of assigned and self directed projects. This is a class that enhances and supports creativity, problem solving, discovery and FUN!! WEDNESDAY SESSIONS 3rd -5th GRADES If a student has participated in the program and wants to do a self- directed project I support their creativity. The students needs to show the ability to work on their own without disrupting the class. I recommend the self-directed projects because the project the student wants to create is challenging. This allows for interesting dialogue with all the students in the class and it is a great inspiration for new students.

Berkeley Chess School: Chess Class

Chess at Crocker Highlands is a beginner/intermediate class. Chess is fun and can be learned quickly and easily! Each hour includes 20 minutes of instruction and 40 minutes of supervised play. Studies have found that chess helps improve test results in reading, science and math, and produces growth in critical thinking. And it's fun! The Berkeley Chess School is a nonprofit organization founded in 1982, which offers chess to students grades 1 and up. We are an affiliate of the US Chess Federation. Over the years our students have won many state championships and several have gone on to become National Masters, FIDE Masters, and International Masters. For further information, email us at programs@berkeleymchessschool.org, or visit our website at berkeleymchessschool.org. 510-843-0150.
